

# PORTABLE OZONE GENERATORS

## OC PLUG-IN

The OC Plug-In fits into any standard 13amp electrical socket and can deliver background ozone exactly where it is needed. This discreet unit provides great flexibility and is highly effective at helping destroy airborne odours. If necessary it can be used in conjunction with other OC Plug-In units to cope with both small and larger areas.

### Key features

- “Plug and play” operation
- Continuous operation to maintain odour free, sterile air
- No environmentally unfriendly chemical consumables
- Sleek, modern design that works unobtrusively in the background
- Maintenance free

### Typical applications

The OC Plug-In is a simple, effective solution for stuffy meeting rooms, busy offices, medical treatment rooms and food preparation areas. It keeps rooms fresh smelling and can be moved easily from place to place as circumstances dictate.

### Specifications

- Height: 92mm
- Width: 68mm
- Depth: 55mm
- Weight: 0.15kg
- Power consumption: Max 3 W
- Power supply: 230-240 V
- Warranty: 6 months
- Maximum room size (1unit): 30m<sup>3</sup>

## OC FRIDGE CARE

The OC FridgeCare is a battery powered ozone generator designed specifically for refrigeration units. It keeps fridges and cold stores free of unpleasant odours as well as inhibiting the growth of mould and bacteria and is ideal for busy commercial kitchens.

The natural bactericidal properties of ozone both prevent cross contamination of foodstuffs as well as prolonging the shelf life of fruit and vegetables.

### Key features

- Two power settings to suit both large and small refrigeration units
- Continuous cyclical operation to maintain odour free, sterile air
- No environmentally unfriendly chemical consumables
- Sleek, modern design that works unobtrusively in the background
- Maintenance free with battery life of 3 months
- LED indicator prompt for battery replacement

### Typical applications

The OC FridgeCare is suitable for any commercial kitchen and can be used effectively in refrigerated food storage units as well as at semi-enclosed food distribution points, e.g. salad bars and buffets.

### Specifications

- Height: 116mm
- Width: 70mm
- Depth: 80mm
- Weight: 0.15kg
- Power supply: 3 x AA batteries
- Warranty: 6 months
